Bon Meade Students “Survive” Math Challenge

Mitchell Luton, Lauren Weber and Liana Berry in Stacy Marquis' fifth-grade class answer questions about math combinations on March 5.

Bon Meade Elementary School fifth-graders prepped for the math portion of the upcoming Pennsylvania System of School Assessment (PSSA) exams in a special competition this week.

“Survivor Math Challenge” pitted each fifth-grade class, or color-coded tribe, against one another in daily mathematics challenges that focused on different math areas included on the PSSA exams. During the challenges, each class were required to answer 80 percent of their questions correctly to earn a reward of fire, water, food, shelter or canoes.

The rewards were tallied on a public bulletin board in the adjoining hallway and the team with the most rewards was named “The Ultimate Survivor Math Challenge” winners.
